DETAILED ACTION

Page 2

(1). Applicants' Amendments and Remarks filed on December 12, 2006 have been received. Claims 14-15 are amended. Claims 20-24 are newly added. Claims 1-13 are cancelled previously.

A new ground of rejections for claims 14-19 is introduced in response to the Amendments filed on December 12, 2006.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112: The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

(2). Claims 14 - 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it cites: consisting of. The phrase "consisting of" is close language. However, it also recites: optionally. The "optionally" is open language. It does not clearly define the scope of inventive subject matters in view of the contradiction.

Claims 15-19 are rejected because they depend on claim 14.

(3). In claim 15, it recites: "consisting of", with d) component. Because claim 15 depends on claim 14, which also recites: consisting of, but in different scope. It does not further limit the claim 14 clearly as two different "consisting of" direct to same subject matters.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

(4). Claims 14 - 19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described

Application/Control Number: 10/814,969 Page 3

Art Unit: 1724

in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

In claim 14, the base for pH adjustment is optional, in view of applicants' Specification, on page 12 as well as page 19. The base is used when certain portion of DTMPA is replaced by polyacrylic acid. In each Examples of applicants' Specification, sufficient base is needed. Therefore, the mixture of instant claim 14 would not be able to be synergistic mixture for enhancing the brightness of bleached pulp as base is optional when the polyacrylic acids are used with DTMPA.

Allowable Subject Matter

(5). Claims 20 - 24 are allowed.

Response to Arguments

(6). Applicant's arguments filed on December 12, 2006 have been fully considered but they are not persuasive.

Applicants address the component a) water to be 40 wt% to 60 wt%, which is not included in prior art reference Bahr et al (US004880566). In reviewing the teaching of Bahr et al (US004880566), it recites: Based on the quantities of aqueous 35 wt % hydrogen peroxide solution used, the stabilizer mixtures according to the invention are used in concentrations of from 2 to 25 % active substance, Col. 3, line 4-8. Illustrated in Example I, Bahr et al (US004880566) use fully deionized water 67 wt% in 6 ml/l organic stabilizer and 60 ml/l aqueous peroxide in 35 wt%. Then the total water content would be 43 ml/l, based on total 89 weight of composition.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Application/Control Number: 10/814,969 Page 4

Art Unit: 1724

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ives Wu whose telephone number is 571-272-4245. The examiner can normally be reached on 8:00 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on 571-272-1166. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
